

**Site No** A182  
**Grid Ref** NS 25000 15000  
**Site Name** Dunure  
**NMRS No** NS21NE 18  
**WoSAS No** 5507  
**Date** Unknown  
Nothing of significance was located in the vicinity of previously found Cast bronze terret of simple form.

## 13.0 Acknowledgements

The field survey was directed by David Sneddon, Project Officer with GUARD and carried out with the aid of Eland Stuart. The desk based assessment was directed by Paul Duffy, Project Officer with GUARD, and the geomorphology and erosional aspects of the survey area were investigated by Dr Jim Hansom and Alistair Rennie of the Coastal Research Group, Department of Geography and Topographic Science, University of Glasgow. The Public Outreach and Training of the Shorewatch groups were directed by Ingrid Shearer, Project Officer with GUARD. This project was managed by Heather James, Project Manager with GUARD. The report was copy edited by Olivia Lelong and desk-top published by Jen Cochrane and technical support was provided by Chris Connor, Ross McGrehan, Lorraine McEwan and Mel Richmond.
